

## CRIBBING, BLOCKING & LEVELING

# Cribbing, Blocking & Leveling

## DICA's 3 UNIQUES

①

### Application Expertise

We are experts who help you solve everyday challenges and maximize your performance.

②

### World Class Products

Engineered, exclusive, patented, and unique.

③

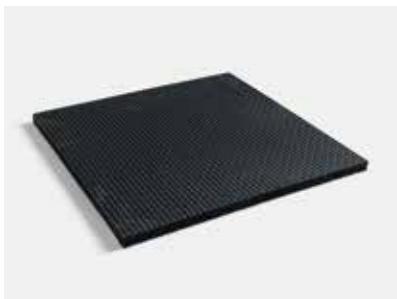

### Win-Win-Win

We are committed to your success and think long-term.

“

*I am totally sold on DICA's products!  
I am recommending them to anyone  
who will listen!*

– Doug Rice, The Davey Tree Expert Company

## Neoprene Grip Pads

—High Friction

### Increase Friction and Improve Safety

- ▶ Various sizes for use with all cribbing blocks and outrigger pads.
- ▶ Indestructible durability. Can withstand high pressures and not fail.
- ▶ Improve friction between cribbing materials and outriggers.

## LevelRight Adjustable Pads

— Patent Pending

### Both Halves Rotate to Ensure Level Set-ups

- ▶ Various sizes. Adjusts from 0-10° in two planes. 350,000 lb. capacity.
- ▶ Use as a single pad or in combination with cribbing blocks.
- ▶ Establish the ideal cribbing base. Ensure your base is level.

## ProStack® Cribbing Timbers

— Composite Lumber

### Support and Elevate Static Loads

- ▶ 4x4, 4x6, 6x6 & 6x8. Various Lengths. Black.
- ▶ Manufactured from post-industrial recycled materials.
- ▶ Multiple uses. Highly durable. High compression strength. Will never rot.

## ProStack® Slot Lock Cribbing Blocks

— Patented

### Interlocking stability, Flat or Flanged Bottom

- ▶ 5" height. 30 lbs. Surface is 18"x18", 100,000 lb. capacity. Black.
- ▶ Interlocks for safety. Will never splinter, crack, rot or delaminate.
- ▶ Cribbing support designed for aerial, digger, and pumping units.

# About DICA

Founded in 1988 by Dick and Carolyn Koberg, DICA is a family-owned company committed to engineering and manufacturing innovative solutions that enhance safety and stability in the lifting industry. Starting with a simple question—"Can you build a better outrigger pad?"—DICA has grown into a global leader, providing a wide range of products, including outrigger pads, crane pads, cribbing, ground protection, and site access mats.

With a legacy rooted in customer-first values and a commitment to excellence, DICA continues to deliver products that are trusted by professionals in over 50 countries. Today, led by the Koberg family, DICA carries forward Dick's and Carolyn's vision of problem-solving through engineered solutions, ensuring safe and efficient operations in the field.
